KL-Kuala Selangor Expressway Enters Final Stage

KUALA LUMPUR, April 21 (Bernama) -- The LATAR Expressway that links Kuala Lumpur at Templer's Park in Gombak with the township of Ijok in Kuala Selangor, has entered into the final stage of development.

Concessionaire KL-Kuala Selangor Expressway Bhd (KKSE) said the 33km dual carriageway expressway would be the alternative link road to the present Sungai Buloh-Kuala Selangor road (Federal Road 54).

In a statement Thursday, it said LATAR Expressway would provide faster, safer and smoother drive, and reduce travel time to just 18 minutes.

It has four interchanges and three toll plazas on each side.

The concession was awarded to KKSE for a period of 40 years with Mudajaya Holdings Bhd as the turnkey contractor. Construction began in October 2008.
