# 'UEM-Bina Puri will meet deadline'

**KLIA2 WORK PACKAGE:** Joint-venture partners working vigorously to ensure completion by January 31, say group chiefs

**U**EM Construction Sdn Bhd-Bina Puri Sdn Bhd joint venture partners said they will complete their portion of the highly-anticipated Kuala Lumpur International Airport 2 (klia2) within the stipulated time.

The companies said in a statement yesterday they wish to reaffirm their commitment to complete their work package that makes up klia2's main terminal building, satellite building, sky bridge and piers within the stipulated deadline.

UEM Builders Bhd (UEM Construction's parent company) managing director Mohd Razin Ghazali said the joint-venture partners are working vigorously to ensure the physical completion of their package and to obtain the Certificate of Completion and Compliance (CCC) for it by January 31.

He added that the companies are doing so with the cooperation of various stakeholders, namely Malaysia Airports Holdings Bhd

(MAHB), the project's various consultants and the authorities.

While meeting the deadline is their objective, Mohd Razin said they will do so without compromising on the safety, quality and operational efficiency of the new airport.

Meanwhile, Bina Puri Holdings Bhd group executive director Matthew Tee said the joint venture partners are working to meet the CCC deadline and so enable the Operational Readiness and Airport Transfer process to commence on February 1.

"We have received good cooperation from all parties concerned and we hope this will continue for the next month," he said.

The main terminal

building, satellite building, sky bridge and piers package awarded to UEM-Bina Puri is worth RM997 million.

The package is one of 32 initial packages awarded by

MAHB to various companies at the start of the project.

**"We are working vigorously to ensure the physical completion... and to obtain the Certificate of Completion and Compliance... by January 31."**
