HYDRO Office

Bina Puri Holdings Bhd, listed on the Main Board of Bursa Malaysia, has a vast working experience in civil and building construction both locally and internationally for the past 42 years. From humble beginnings in 1975, today the Group has diverse business activities in investment holdings, civil and building engineering management, property development, highway concession, quarry operations, manufacturing of construction materials, utilities and hospitality management.

The group has over the years been rightfully recognised and deservedly received various awards and merits that testify to the achievements as well as the accomplishment of the Group. This mark of excellence is displayed in the preceding page.

The success story of Bina Puri can be seen in the many completed projects thus far. Among the many successfully completed are roads and highways, bridges and interchanges, waterworks, land reclamation works, residential and commercial buildings, hotels, hospitals, airports and government complexes.

1995 marked the year Bina Puri spread its wings and went on venture into international projects. Currently, Bina Puri has operational offices in Brunei Darussalam, Indonesia, Pakistan, Saudi Arabia, Russia and Thailand.

Type: 6 & 8 Storey of resorts, accommodation in various types such as junior suite, suite, executive suite, executive deluxe, deluxe and standard.

Facilities: Sea Food Restaurant, Health Centre, Spa and Massage Centre and Souvenir Shops

Highway Concession

The KL-Kuala Selangor Expressway (LATAR)

KL-Kuala Selangor Expressway Bhd, the concessionaire for **KL-Kuala Selangor Expressway (LATAR)**, was responsible for the construction of the 33 km toll expressway with dual carriageway with value in excess of RM958million (USD309mil), spanning from the north of Templer Park, Rawang, in the District of Gombak to Assam Jawa town in the District of Kuala Selangor.

The expressway forms the north-east link of the **Kuala Lumpur Outer Ring Road (KLORR)** network as part of the traffic dispersal system within and around the greater city of Kuala Lumpur. **LATAR** started construction in October 2008 and the expressway is now fully operational since its official opening on the 23rd June 2011.

It now acts as an alternative route to the Federal Road 54 (Jalan Kuala Selangor) and provides 6 interchanges, namely Ijok Interchange, Puncak Alam Interchange, Templer Park Interchange, Kuang Interchange, Kundang Interchange and BTP Interchange for easy traffic dispersal in and out of the expressway; as well as 3 toll plazas located at Assam Jawa, Kuang and Taman Rimba Templer.

LATAR also provides links between major road networks within the Klang Valley by linking the **East Cost Expressway (LPT1)**, the **North South Expressway (PLUS)** and the future **West Coast Expressway (WCE)**.

Hospitality

Bina Puri ventured into the hospitality services with our maiden project being the OSP Puni Residence, located at Jalan Ong Sum Ping, in Brunei Darussalam. The Group is in the midst of refurbishing and upgrading three (3) blocks of 72 units unoccupied apartments into modern serviced apartments.

Utilities

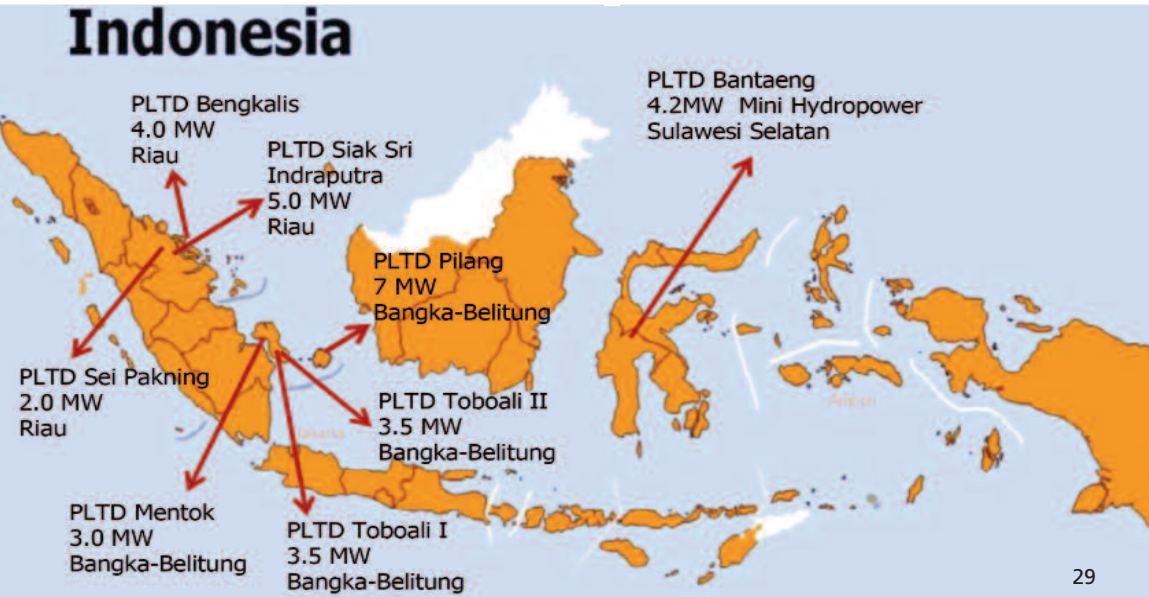

Bina Puri Power Sdn Bhd (BPPSB), a subsidiary of Bina Puri Holdings Bhd has ventured into power supply business area in Indonesia. We are currently operating a total of 33 MW capacity of micro diesel generated power plants at 8 locations in Indonesia of which include PLTD Toboali, PLTD Toboali II, PLTD Mentok and PLTD Pilang in Kepulauan Bangka Belitung; as well as PLTD Bengkalis, PLTD Selat Panjang, PLTD Siak and PLTD Sg. Apit in Provincial & Kepulauan Riau.

BPPSB through PT Megapower Makmur, a subsidiary incorporated in Indonesia is supplying power with minimum supply of 2,000KW/h per plant or 48,000KW/day for the use of household and industrial sectors mainly in the islands of Sumatera and Bangka Belitung of Indonesia.

Beside micro diesel-generated power plant, PT Megapower Makmur is also operating a 4.2MW capacity of Mini Hydro power plant in Sungai Bialo, Desa Pattaneteang, Kabupaten Bantaeng, Sulawesi Selatan. PLTM Banteng-1 mini-hydro power plant is a "Run-off River" type of power generation plant. The length of this green renewable energy power plant is about 1.7 KM from weir to its power house location.

The Power Purchase Agreement (PPA) tenure is for 15 years (upon expiry, subject to negotiation for further renewal of 15 years) effective from the date of the first commercial run of the power plant which was in June 2016, with an option to further extend the PPA for another 15 years. The contracted annual output of electricity produced is approximately 23,913GW/h.
